Go to bumper.nl/voertuigcontrole

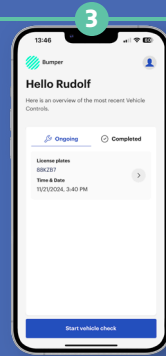

Bumper

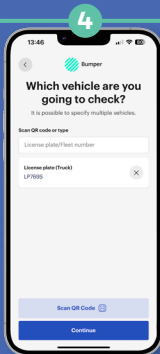

1 Install the Bumper app on your mobile
Go to the App Store or Google Play Store and download the Bumper app. Are you using a trip computer? Then send an email to info@bumper.nl. We will help you.

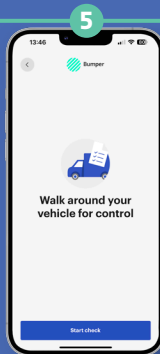

2 Open the Bumper app
Enter your licence plate number and date of birth to sign in.

3 Your personal dashboard
From now on you can start directly from your personal dashboard by saving your data. Handy if you often drive the same vehicle.

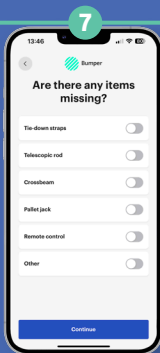

4 Start Vehicle Check
Enter your registration number or scan the QR code of the vehicle you are going to check.

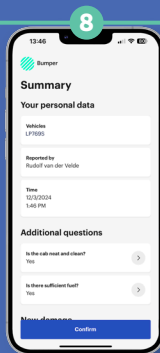

5 Check your vehicle
Check your vehicle in a few easy steps.

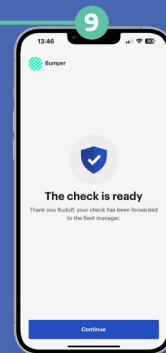

6 Report damage
Report damage with no effort at all. The blue dots are new damage, the black dots are existing damage.

7 Anything missing?
Tick which items you are missing.

8 Check summary
Check the summary and confirm your vehicle check. The fleet manager immediately gets all the information.

9 Ready to leave
Your vehicle check is ready. We wish you a safe journey!
